

SPECIAL HAPPY MOMENTS REPORT EDITION 2

Prepared by Robinson Stanley Obadha

OVERVIEW OF THE SPECIAL HAPPY MOMENTS EVENT

Name of the EVENT: **Special Happy Moments Edition 2**

Theme: **Meet and Greet Break the Barrier**

Host Organizer: **Kogelo Empowerment for Economic Development Organization (KOEEDO)**

Support Organizers: **KOEEDO, Dolphin Special Program, Embakasi east abled voices, Nawiri Arts, County government Nairobi.**

Sponsors: **CITAM Parklands, Siginon Group, Ezesha Plus, People for Peace, cerebral palsy foundation, Hon. Babu Owino Embakasi east and Hon Nyantika Embakasi ward.**

Number of children: One hundred and fifty

Age range of the children: 20months-18 years In this context we came together in creating **Special Happy Moments Event edition 2** It's an event for special kids who are suffering from developmental disability and we brought them together for **Meet and Greet to Break the Barrier**. There exist negative attitudes and social taboos against PWDs in many parts of the World and that includes Kenya. This leads to the neglect of these vulnerable people hampering the development of their God-given potentials and for the above mentioned we are working to reverse the trend.

PURPOSE OF THE EVENT

- Venue: **Embakasi Social Hall**
- This event aimed at supporting and creating safe space for children who are differently able during the holiday.
- Meet and Greet Break the burrier was our main purpose and this created unforgettable experience that we shared with the caregivers (Parents) and the children themselves.
- Interviewed(caregivers) parents and get to understand the challenges they are going through.
- Future program: Organizing workshop with the care givers (parents to the able differently children) to come up with measures to reduce or cub the challenges they are going through.

UNDERSTANDING ABLE DIFFERENTLY CHILDREN

- Talking about a “child with a special need” is more appropriate than a “special-needs child,” because it emphasizes that he or she is a child first. Be sure to name or describe the disability, rather than label the child, when you talk about a child with a special need.
- A **special needs child** may have a life-threatening condition or severe learning disabilities. Either way, they are children that requires special attention and care that other children do not.
- **Cerebral palsy (CP)** is the most common physical disability in childhood. Approximately 2-3.5 per 1,000 infants in developed countries are born with the condition, other condition is **intellectual disability, autism spectrum disorder, Down syndrome, cerebral palsy, spina bifida, hydrocephalus Attention-Deficit/Hyperactivity Disorder (ADHD), Conduct Disorder (CD), Depression, Developmental Disabilities, Muscular dystrophy, Sickle Cell Disease and Fetal Alcohol Spectrum Diso**
- **How to Explain a Diagnosis to Your Special Needs Child**
 1. Remind Them There's Nothing Wrong With Them. ...
 2. Talk Matter-of-Factly About the Symptoms. ...
 3. Get Insight into Your Child's Curiosity. ...
 4. Talk About It, Even Before They Ask. ...
 5. Use Person-First Language. ...
 6. Talk About the Symptoms. ...
 7. Educate Your Child About Bullying

MEET&GREET SESSION

IT WAS A 4 HOUR SESSION OF BONDING WITH THE CAREGIVERS (PARENTS) AND THE CHILDREN OUR TEAM FORMED GROUPS OF BOTH PARENTS AND CHILDREN TO SHARE AND BOND TASK WAS TO CREATE A ROOM WHERE PARENTS WOULD FEEL FREE TO SHARE THEIR CHALLENGES UPON FINISHING THE TASK ONE VOLUNTEER FROM EACH TEAM SHARED THE REPORT WITH US

REPORT THAT CAME FROM THE MEET&GREET SESSION

FINDINGS

FROM: VALARIE AKINYI

That's my report of the event we had on Tuesday, Baby Arnold not his real name is ten years old, they live in Soweto , it's a family of three, He is the first born and his mom is s a single parent and she does laundry for people to be paid, baby prince is suffering from autism ,he uses three different types of drugs to calm his nerves, his mom's challenge is lack of job or something to do to sustain her family because in every week he has to go for a therapy session and a session costs ksh 400 and facility they go to is very far.

FROM: VALLARIE AKINYI

John not his real name is a boy who is aged 17 he lives in with his both parents and the Dad is a drunkard and at the age of 17 peter has never attended school because his family can't afford ,he only stays in the house waiting for the mother to get out there and look for something to do so that she can feed the family, peter has autism and cerebral palsy , challenges that Peter has is lack of food, drugs and shelter because wherever they go they're always chased away because neighbors cannot stand their son's situation and also lack of money, Peter's mom cry is to be able to get something that can sustain all the family needs

- ✓ Need of special school and fees of about 8000/= per term
- ✓ The mother has no but stable job
- ✓ Difficulty in taking care of herself (toilet, bathing etc.)
- ✓ Discrimination
- Cerebral Palsy
- Parents: Ester Wanjiko

THE GREATEST CHALLENGE FACING THE CAREGIVERS (PARENTS) OF ABLE DIFFERENTLY CHILDREN

The caregivers are appealing through **KOEEDO** and partners for all well-wishers to support these children to get their dream come true. These children can change the world but they can't do it without our support. There is a challenge for Getting food & nonfood stuff, school uniforms, shoes and scholastic materials isn't easy. Utility bills are hard to be paid for since most of caregivers are un employed and makes it difficult for them to fend for their families and this push them to a point where they will have to cage their differently able children.

Paying for physiotherapy and medication is also a challenge, providing a Balance diet for the children is also a challenge.

For long term program we zero in to 5 major points

1. Education (School fee, scholastic materials and shoes /uniforms)
2. Health (medication, physiotherapy and nutrition)
3. Empowerment (**setting small business for long-term support of care givers and donation of both food and nonfood stuff**)
4. Mobility devices (**wheelchair, crutches, walking stick and Artificial Limbs**).
5. Setting up day care Center for the children.
6. Education Centers.

ACKNOWLEDGEMENT:

During the event we manage to mobilize over 130 kids and their caregivers totaling to 260 that attended the event. We really had a wonderful day with the kids we cooked and we celebrated together in form of bonding with the kids. We appreciate the help of the groups that Joined us well-wishers and donors who supported and to make this event a reality
